

ROCKY MOUNTAIN CHAPTER

Established in Colorado, Utah, and Wyoming

NORTH AMERICAN SOCIETY FOR
TRENCHLESS TECHNOLOGY

OUR MISSION

NASTT is pleased to announce the formation of the Rocky Mountain Chapter. The mission of this new chapter is to advance the goals of the national NASTT, increasing education and awareness of tunneling and trenchless technologies for rehabilitation of existing pipelines and construction of new pipelines. The Chapter plans to join forces with other industry organizations –AWWA, JTAC, ASCE, AEG, and CAGE – to further promote the Chapter’s goals of raising awareness of trenchless technology on a local level.

CHAPTER ACTIVITY

“We look forward to working with NASTT to create a vibrant and useful chapter in the Rocky Mountain Region,” said Tracy Lyman, the chapter’s newly elected Chairman. “The chapter has a number of events already planned for 2010, including an annual conference to be held this October in Denver, CO, as well as hosting forums as a way of introducing the chapter to local municipalities.”

Key areas of interest for the Rocky Mountain Chapter include:

- Trenchless Construction
- Asset Management
- Rehabilitation and Repair
- Municipal Interests

JOIN TODAY

From educational resources to training tools and more, NASTT members have access to a wealth of valuable information and networking opportunities.

Membership benefits include:

- Members-only discounts
- Complimentary access to online reference tools and publications
- Subscriptions to industry trade magazines
- Leadership opportunities
- And much more! Our members often join for one reason, only to discover the value of many others.

Joining is easy. Visit our Web site for details.
